PROFILE

Aspiring software developer and recent graduate of Nanyang Polytechnic's Diploma in Information Technology program. Skilled in Python, JavaScript, and C#, with a strong foundation in both front-end and back-end development. Proven ability to collaborate in team environments, lead initiatives, and communicate effectively. Eager to contribute technical expertise and problem-solving skills in a dynamic development role.

WORK EXPERIENCE

Challenger

2021-2022

Sales Associate

- Assisting customers in guiding them around the store and giving technical advice on recommendations on what they should buy

KFC

2023-2024

Cashier

- Handling customers, occasionally difficult ones and multitasking cooking whilst packing food to be served to customers

Arthematic Malaysia

2024-2025

Web Developer

- Built and set up a working website for Arthematic Malaysia.

PROJECTS

Arthematic.com.my

The website I created for Arthematic Malaysia as mentioned above in work experience.

- Set up the website using HTML, CSS, JavaScript
- Form handling using Php to send e-mail copy of form responses

RIPBLADE

My personal Roblox game development project that I am working on.

- Designed core combat systems using Lua
- Other skills used includes UX/UI Design, Teamwork and designing logic systems

Greenbyte

A school project I've worked on with my teammates during our App Development Project module.

- Used Python Flask to set up and manage the back end of the project.
- Used HTML, CSS and JavaScript with Jinja2 to handle the user side of the project.
